Basic Guidelines:

- The entirety of this project will be completed outside of the classroom. Students need to take responsibility to make sure they meet the deadlines for this project.
- Projects must contain the following basic information about the chosen space topic:
 - Who is involved with your topic?
 - What is your topic? (lots of details and facts)
 - Where in space is your topic located?
 - When was your topic discovered or made?
 - Why is your topic important to the solar system?
 - Why is it important to know about your topic?
 - How was your topic created?
- Information should be accurate and complete.
- Project must be NEAT and your best work.

Important Dates:

- ◇ **Wednesday, October 9, 2013** : Topic and Type of Project (with Parent Signature) must be submitted to your teacher by 3:25pm.
- ◇ **Monday, November 4th**: FINAL PROJECT DUE
